INTRODUCTION

The Chester Upland School District (CUSD) is seeking vendors to furnish and deliver two (2) industrial rider and four (4) industrial push floor scrubbers.

These floor scrubbers will help to ensure the quality cleanliness of the building floors in a fraction of the time. Maintaining proper cleaning and sanitation to the floors is important to decrease with the spread of the COVID virus. Droplets from coughing and sneezing can land on the floor and can be picked up on a person's shoes as walk across the floor. A person can bring the virus into their home from their shoes. Once removing their shoes droplets from the shoes can be spread to the hands and face and increase the person's chances of becoming infected. The process can also work in the reverse and be spread from home environments to work or school environments. Therefore, in addition to cleaning and disinfecting high touch surfaces, cleaning the floor is equally important.

The following schools will receive scrubbers:
