

Chester Upland School District

Receiver's Meeting

October 24, 2023

Responses

<p>Will all the contracts on the Education Agenda now provide the Special Needs children get the services they need? Will you now be pushing the children to umbrella schools?</p>	<p>We have added additional vendors to support the needs within our district as there is a national shortage that has created challenges for district and out of district providers. We are continuing to work with new and returning partners to ensure services for students. Decisions regarding out of district options are on a student-by-student basis. All districts are required to ensure the least restrictive environment and for some students out of district placement would not be their least restrictive environment</p>
<p>When will there be lighting in front of Chester High School on 9th Street?</p>	<p>An assessment of the lighting needed has been done as a follow-up. The Central Office has added lighting to the district's projects.</p>
<p>How will the students from Toby Farms be transitioned to 1350 Edgmont?</p>	<p>Your child, if identified as one of the student's that will be attending the alternate school site, will remain on their assigned Bus/Van and will be transported directly to their off-site location after the Drivers drop-off their other assigned students at Toby Farms.</p> <p>For dismissal, your child will be picked up FIRST from the off-site school location and will be delivered to his/her bus stop, AFTER, the Driver picks up the remaining assigned Bus/Van students from Toby Farms at their normal dismissal time.</p>
<p>Is there a policy regarding the use of Cell Phones in the classrooms?</p>	<p>Please refer to Policy 237: Electronic Devices which can be found on BoardDocs.</p>
