March 16, 2020

Dear Parents/Guardians:

The Chester Upland School District is committed to ensuring our students have access to quality learning tools and materials. As the Coronavirus (COVID-19) begins to have a greater impact on our students and families, we wanted to share with you the learning opportunities that are available to students while they are away from school. Students have access to math, literacy, science, and social studies digital learning opportunities via any internet linked personal computer or cell phone, they will simply need to use their username and password.

In order for our students to reach our Online Programs we have created links for them on the District Web Page. Please follow the steps below to access the Online Programs and our Teacher Web Pages.

1. Please go to our District Web Site: www.chesteruplandsd.org
2. Once on the web site, please scroll down to the bottom of the page where you see our WELCOME column.
3. In that column you will see highlighted "STUDENT ONLINE PROGRAMS"
 - a. Below that header, each of the programs that the district is using is listed.
 - b. Please find the program you are looking for and "click" on that link.
4. Below the "STUDENT ONLINE PROGRAMS" you will see "TEACHER WEB PAGES"
 - a. Click on your school's name.
 - b. Once on the teacher web page, find the teacher's name who teaches your child's courses.

Wishing everyone great health and peace during this challenging time.

Sincerely yours,

Jala Olds-Pearson

Dr. Jala Olds-Pearson
